- Draft report submitted to TAC January 2009
 - Approximately 2000 page document with main report and 18 appendices
- TAC conducted a technical review of the draft HHRA
- Meeting held in Winnipeg on February 23rd, 2009 to discuss preliminary comments and concerns
- On-going dialogue between Intrinsik and TAC to clarify issues and concerns
- Draft Executive Summary circulated for comment

STATUS OF THE HHRA (continued)

- Intrinsik modifying draft to reflect new information as well as to address comments and concerns from TAC
- Intrinsik to provide 'Final Draft for IERP Review' by end of week to TAC and IERP
- Draft to include all TAC comments and an indication of how issues have been addressed
- IERP process.....

NEXT STEPS FOR HHRA

- Independent Expert Review Panel (IERP)
- Intrinsic to participate in IERP panel meeting to provide clarification
- Intrinsic to respond to IERP comments and concerns
- Intrinsic to modify draft HHRA to address IERP concerns
- TAC to review final draft and provide comments
- Intrinsic to finalize HHRA
- Results to be presented to CAC and Public
 - December 2009/January 2010

RISK MANAGEMENT PLANNING

- The HHRA will help to inform the risk management decision making process
- While this other work is ongoing, consideration is being given to the development of appropriate risk management plans such that they are ready should they be required.
- This planning will review procedures and methodologies for assessing specific areas of risk and putting in place any necessary actions to address those risks.
