Introduction

- The agenda was reviewed and accepted.
- The notes from the April 8th meeting were reviewed and approved. The action items from the previous meeting were updated.

Confirmation of Communication Materials for the Open House

- The final comments on the draft report and handout have been received by Intrinsic and the final revisions will be complete later today.
- Through discussion with radio personnel, it was determined that the suggested phone-in session won't work. An interview with Elliot and one of the Medical Health Officers has been arranged for May 14 (before the Open House starts). An interview with The Reminder has also been arranged for the same day (see action #13-12).

Other Business

- This will be the last meeting of the TAC. As previously agreed, the Joint Regulatory Group (which pre-existed this process) will resume oversight of the ongoing Hudbay Risk Management Plan. Thanks were expressed to Committee Members for their effort and commitment to this process.
