## Introduction

- The agenda was reviewed and accepted.
- The notes from the January 12 meeting were accepted, pending two minor revisions.
- The action items from the previous meeting were updated as indicated in the tables below.

## Comments on HHRA

- Intrinsic personnel have received comments from the Independent Expert Review Panel (IERP) regarding the revised draft HHRA report:
  - The Panel provided suggested wording for childhood uncertainty factors.
  - The IERP has signed off on the revised HHRA.
  - A review of the comments will be part of the agenda for the face-to-face meeting.
- To date, no additional comments from the TAC have been received. The group was asked if any major comments would be forthcoming. It was determined that most TAC members have some comments, but none will be substantive and all will be provided by this Friday.

## Exposure Study Update

- Goss Gilroy personnel provided a status update on the Exposure Study Report:
  - An internal review of the technical report is underway.
  - The report is scheduled for circulation to the TAC by February 17<sup>th</sup>.
  - Comments on the report should be made by the TAC members by the February 24<sup>th</sup> face-to-face meeting for further discussion at that meeting (see action #150).

## Overall Schedule

- A draft schedule of the key upcoming milestone dates was circulated prior to this meeting. No major changes were identified, but it was agreed that the schedule should be revisited at the face-to-face meeting.

**Other Business**

- An agenda for the February 24<sup>th</sup> meeting needs to be set (see action #151).

**NEXT MEETING: February 24 from 8:00 A.M. – 3:00 P.M.  
Manitoba Conservation Conference Room  
123 Main St. Winnipeg**
