 MB Health: Lawrence Elliott, Susan Roberecki  
 MB IEM: None  
 MB Water Stewardship: Kevin Jacobs  
 SK MOE: George Bihun  
 SK Health: James Irvine  
 Health Canada: Eveline Schroth  
 HBMS: Ian Cooper, Alan Hair, Shirley Neault  
 Intrinsic Environmental: Elliot Sigal, Adam Safruk  
 Facilitator: Sheldon McLeod  
 Observers: Dave Price

## Introduction

- The agenda was reviewed and accepted.
- The notes from the April 19 meeting were reviewed and approved.
- A discussion regarding the presence of CWG members on TAC calls resulted in an agreement that participation is limited to observing and that notes will be passed on as appropriate by government personnel.

## CAC Workshop

- The planned approach for the CAC workshop was discussed and agreed to.
  - Two documents will be circulated to the CAC prior to the workshop: the revised 4-pager and the revised integrated summary document. The 4-pager will be work-shopped and the CAC members will wordsmith the document. To alleviate the concerns that were raised regarding the conceptual risk management section of the integrated summary document, that section will be removed from the version that is circulated to the CAC (see action #163) and they will be reminded that the document is still a “work in progress”.
  - At the Friday evening workshop, the agenda will include: a discussion regarding the perception of the study process, a review of the communications plan, a review of the 4-pager and the development of a Q&A document.
  - On Saturday, the agenda will include: a discussion regarding the integrated summary document / input into the conceptual risk management plan, a review of the planned open house materials, a review of the revised Q&A document and revisiting the perception of the study process.
- Most of the TAC members usually in attendance at CAC meetings plan to attend the workshop. However, at least one member plans to participate via telephone (see action #164).
